REVEALS: AFTER
the article written
by **Barbara of New York**
City, regarding Jack Ruby
why I may help him to
understand why there is so much
trouble over Ruby.

First Ruby became a criminal when he shot Oswald regardless of what Oswald may have done and because of this should get the usual punishment for this type of crime. Secondly there is absolutely no proof that Oswald was the assassin and after looking all reports over I am inclined to believe that Oswald did not do the shooting but was placed in a position where he could be readily blamed.

Sometimes it seems possible to me that Ruby was allowed to enter a stationhouse with a gun and shoot a prisoner. According to Mr. Keworth we should toss our ink out of the window along with our courts and furnish all citizens with guns to shoot those whom they thought were wrong.
